Introducing the company

Marvelous Stone Company has been preparing and supplying building stones required by customers since 2019. The company operates in the field of supplying marble, granite, onyx, travertine, and basalt to domestic customers, neighboring countries, and other countries around the world.

As a country with building stone reserves of nearly 7.4 billion tons, Iran is ranked seventh in the world in terms of stone reserves. This divine gift must be used more appropriately to serve humanity. So, Marvelous Stone Company has always tried to take a step towards further rank promotion and commercial position of Iran by introducing the products with the best quality as per the latest international standards.

Besides, Marvelous Stone Company is proud to announce that it can supply the best and highest-quality types of building stones to meet the needs of domestic and foreign customers.

Marvelous Stone Co. always strives to provide the best services in the field of sending customer orders while maintaining the interests of customers, employees, and other stakeholders, such as factories for supplying, processing building stones and transportation companies.

In this regard, our main aim is to support the domestic and foreign customers faithfully. With such support and years of experience, the company produces and delivers stones to the respected customers.

We do our best to provide superior and worthy services for customers in Asia based on the vision of the company that is the best manufacturer and supplier of the required types of stones in Asia.

The basic and main mission of Marvelous Stone Co. is to give the best customer service and gain highest customers' satisfaction.

Message from the CEO

Mission

Production and supply of building stones such as granite, marble, onyx, travertine, quartz, and basalt with the highest quality and reasonable prices in all economic conditions for domestic customers is our mission in Marvelous Stone Company.

Vision

The best manufacturer and supplier of building stones (granite, marble, onyx, travertine, quartz, and basalt) to meet the needs of domestic and foreign customers in Asia

Goals

01

Cooperation with public and private organizations to meet their needs for various types of building stones

02

Elimination of intermediaries and supply of various types of building stones to customers directly

03

Communication with well-known and approved foreign manufacturers to improve the level of exchange. The company seeks to improve the supply and demand situation in the building stone industry by using modern sales and marketing methods in addition to conventional methods.

Our Culture

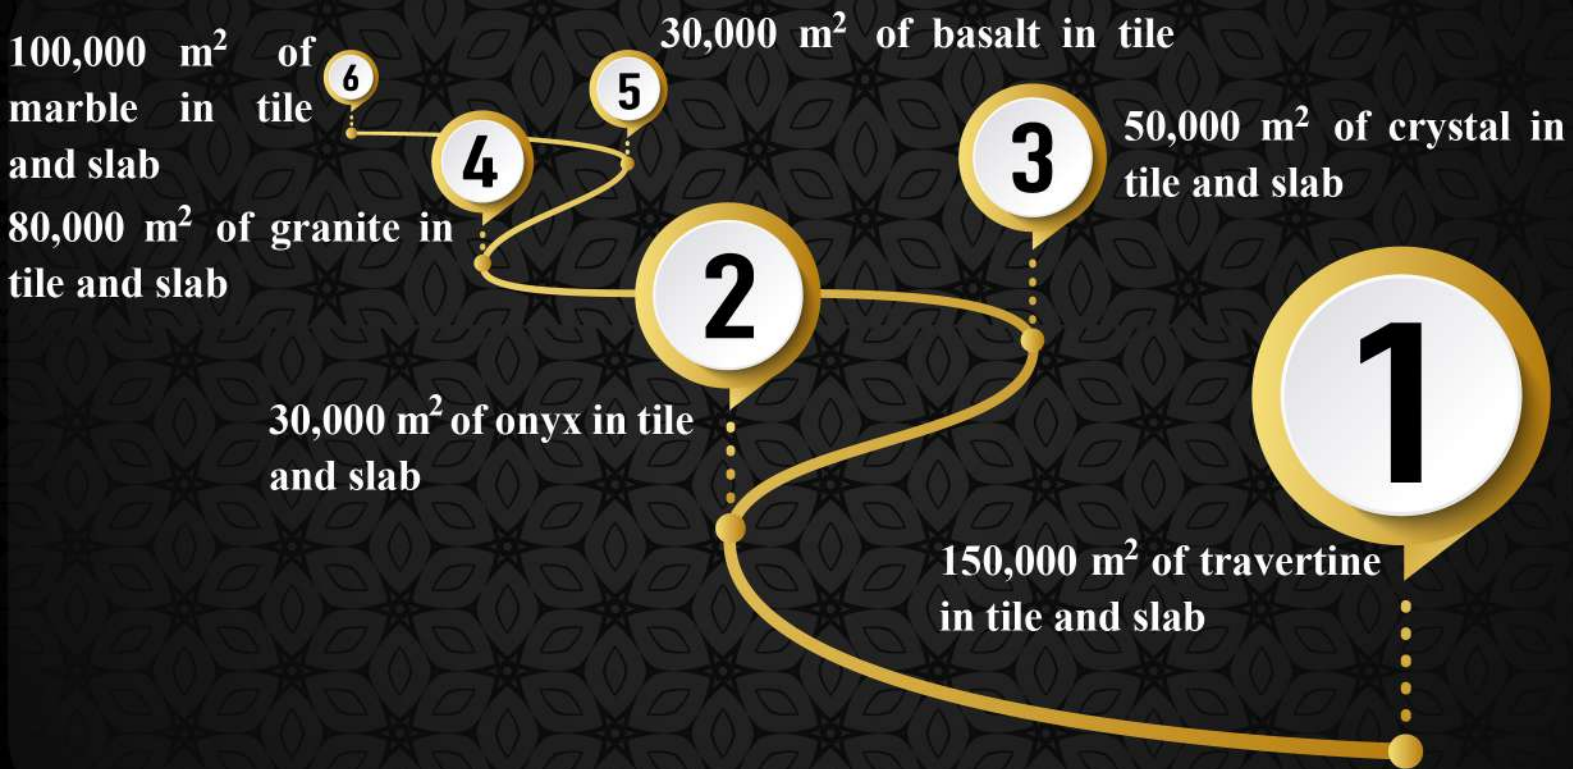

All the activities of Marvelous Stone Company are done to satisfy the customers. Our organizational culture is based on respect for customer demand. In this regard, we use the best mines, suppliers, products, packaging, road and rail transportation systems, and shipping lines.

In Marvelous Stone Company, we offer the best and highest quality products as the best alternatives to customers before registering the final orders of customers by providing advice through experts in the sales team.

Facilities

In Marvelous Stone Co., we are proud to announce that our annual production and export of various types of building stones is very significant. Our annual capacity of production of various building stones is as follows:

The facilities offered by Marvelous Stone Co.

Pursuing to eliminate or reduce customs tax on overseas customer orders

Sending foreign customers' orders through the best international shipping lines

Providing the best wooden and metal packaging for overseas orders

The use of high quality and affordable road transportation

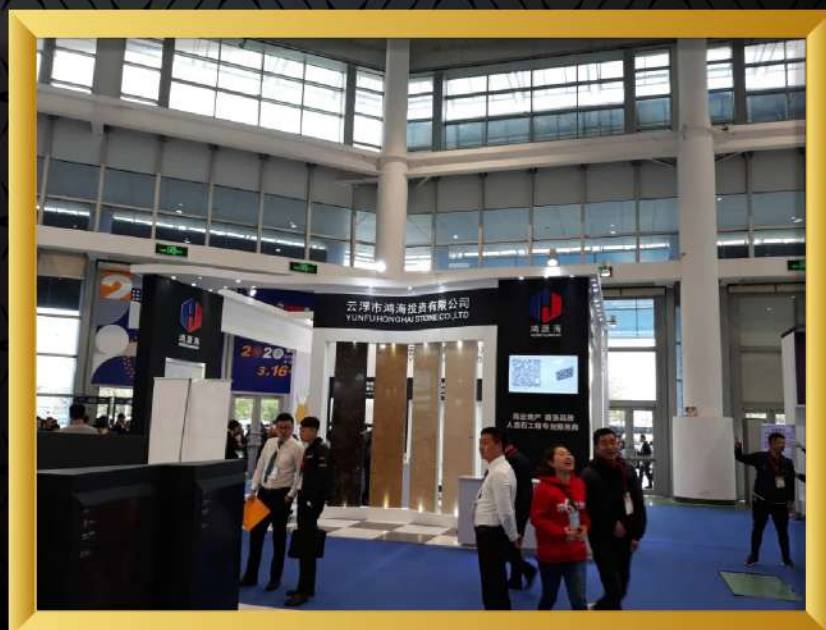

Offering the best stones produced with the highest sort and excellent cut

Participation in domestic and foreign exhibitions

Marvelous Stone Co. is constantly present in domestic and foreign exhibitions to introduce its products and products due to its major stone exports to various countries. In these exhibitions, which are held annually in Tehran and Isfahan International Exhibition Centers, we introduce the types of quality and sorting available to customers by displaying the products of various types of stones in slab and tile dimensions.

Moreover, Marvelous Stone Co. is present at the China Xiamen International Stone Fair, the Dubai Expo 2020, the Germany Nuremberg Exhibition Center, the Trade Shows Worldwide in the Netherlands, and the Trade Shows Worldwide in Austria and introduces its products to foreign customers too. The 25hours Hotel Zürich West, Switzerland, the a & o Wien Stadthalle in Vienna, Austria, and accommodation projects in the UAE, Sweden, and the Netherlands are some of the projects whose interior stone facades have been the responsibility of Marvelous Stone Co.

General information about stones

Marvelous Stone Company offers the best advice on choosing different types of stones with different uses by the sales team experts.

Stone is a natural object composed of one or more minerals. Stone, a divine blessing found in nature, which is used to provide various services. One of the main construction materials is stone, which is used in most civil engineering projects, roads, railways, and ports.

01

02 Some of the characteristics of stone are consist of very high durability and resistance, optimal polishing, cutability and polishability, washability, resistance to heat and humidity, impermeability, resistance to climate change, stability to acidic and alkaline materials, durability, physical and chemical analysis, color, and price.

Building stones are used in different ways such as interior facades, floors, stairs, interior wall coverings, facades, walls, foundations, interior decoration, cabinet stones, and counters. Stone selection is based on where it is going to be used.

03

Product delivery process

1 Providing customer orders by phone, website, or social media through the sales department of Marvelous Stone Company

2 Giving advice by consultants in sales team

3 Inquiring about the product and price from the company's warehouses

4 Notifying the customer through a pre-invoice if inventory is available and the price is inquired

5 Sending free samples to the customer if the price is accepted by him/her

6 Depositing by the customer after he/she accepts all the terms of the product

7 Loading order

8 Sending order through the best transport

9 Delivering order to the customer on time

Transportation of products

Marvelous Stone Co. guarantees to send orders safe and secure from the time of loading till delivery. Skilled and specialized people working in our warehouses have passed the necessary training to transport and load the stones. Furthermore, the recruitment of drivers who drive safely and safely is monitored. All customer orders from the time of loading to delivery are covered by insurance, which can be used to compensate for damage in the event of various or unexpected events. Marvelous Stone Co. guarantees the healthy delivery of products.

After passing all physical and mechanical tests of stone, including minimum rupture factor, minimum compressive strength, minimum abrasion resistance, minimum flexural strength, minimum density, maximum water absorption, and frost resistance, stone companies achieve the desired standard. They then offer their products for sale to customers and suppliers.
